FOR INTERNAL AUDIT

END-TO-END AUDIT LIFE CYCLE MANAGEMENT – WITH THE LOWEST TOTAL COST OF OWNERSHIP

THOMSON REUTERS ACCELUS

Thomson Reuters Governance, Risk, and Compliance (GRC) business unit provides comprehensive solutions that connect our customers' business to the ever-changing regulatory environment. GRC serves audit, compliance, finance, legal, and risk professionals in financial services, law firms, insurance, and other industries impacted by regulatory change.

The Accelus™ suite of products provides powerful tools and information that enable proactive insights, dynamic connections, and informed choices that drive overall business performance. Accelus is the combination of the market-leading solutions provided by the heritage businesses of Complanet, Oden®, Paisley, West's Capitol Watch®, Westlaw® Business, and Westlaw Compliance Advisor.

Increase the efficiency and productivity of the entire audit process with a comprehensive internal audit solution that includes risk assessment, planning, scheduling, documentation, preparation, review, report generation, issue tracking, and administration.

ROBUST AUDIT FUNCTIONALITY PROMOTES EFFICIENCY AND COLLABORATION

Centralized data capture, risk assessment, reporting, and documentation let you immediately boost productivity and increase efficiencies, while reducing costs and improving the quality of audits.

DRIVE USER ADOPTION

- Efficiency – Easily schedule staff resources and create and share electronic workpapers; quickly identify and assess enterprise risks.
- Automated workflow – Automated review and approval, indexing of workpapers, and instant visibility to issues and action plans.
- Ease-of-use – Easy-to-use interface lets new staff use the software with minimal training.

PROMOTE EFFICIENCY AND EFFECTIVENESS

- Drive consistency – Leverage a vast library of standard templates, checklists, and frameworks that promote adherence to management-approved steps and professional practices.
- Collaboration – Share risks and risk assessments, audit findings, key risk areas, and recommendations across the internal audit department.
- Single source of truth – Leverage a common taxonomy, common core data model, and organizational structure.

REAL-TIME VISIBILITY INTO AUDITS

- Visibility – A secure and centralized database permits a global view of audit progress and results.
- Reporting – Automated report generation delivers real-time information to key stakeholders.
- Confidence – Provide actionable information to management; assure stakeholders that effective frameworks are in place.

FLEXIBLE DEPLOYMENT OPTIONS

- On-premise perpetual license – Deploy software in your environment; manage your own infrastructure and software upgrades.
- On demand – Access software via Web-browser. Thomson Reuters manages GRC infrastructure and software upgrades.
- Hosted perpetual license – Access software via a Web-browser; manage your own updates.

DELIVERING TRUE BUSINESS VALUE

A pioneer in internal audit software since 1995, Enterprise GRC continues to deliver user-inspired products to the marketplace. With the resources and dedication to invest, we continue to support innovative assurance solutions that drive efficiency and reduce the time and resources needed to support internal audit processes.
